

Opticians in April!

Sunday April 28th, 2019 8:30 a.m. - 4:00 p.m.
DoubleTree by Hilton - Pleasanton 7030 Johnson Drive, Pleasanton, CA

8:30 - 9:00 a.m. **Registration and Welcome**
Light refreshments served

9:00 - 9:50 a.m. **Advanced Physiology of the Eye**
(1 Hour ABO/NCLE)

This course will list and identify the structures of the eye, explaining the visual functions. It will also discuss the refractive status and process of the eye, identifying various conditions of the eye and possible corrections. Included will be muscles of the eye and how they work, and how to identify and manage unequal refractive errors and complications of the eye.

10:00 - 10:50 a.m. **Unequal Refractive Errors and the Effect on Vision**
(1 Hour ABO/NCLE)

Patients want to know what their glasses will look like and we spend time discussing that with them. But...how will they see with their glasses? That's an even more important question. Unequal refractive errors not only have an effect on how glasses will look, but how a person sees or even "IF" they see WELL. This course will present answers to these questions presenting both spectacle and contact lens options in the discussion.

11:00 - 11:50 a.m. **Advanced Secrets of the Lens Cross**
(1 Hour ABO)

This course will discuss the powers of lenses in all meridians by placing the Rx on a lens cross. Also presented will be information that will assist the ECP in both visualizing the final Rx as well as identifying any unwanted concerns relating to the Rx. Unwanted prism and vertical imbalance will be discussed.

Noon - 1:00 p.m. **Lunch**

1:00 - 1:50 p.m. **Converting Bifocal Rxs into Task Specific Eyewear**
(1 Hour ABO)

While this course is designed to be a basic level course, it will present information in a way that the more experienced participant will find beneficial as well. This course will introduce types of lenses and will also discuss how to transpose a prescription as well as how to convert a bifocal prescription to a task specific prescription. Included will be how to place the prescription on an optical cross in order to visualize the finished product.

2:00 - 2:50 p.m. **Troubleshooting Rx Complaints**
(1 Hour ABO/NCLE)

Troubleshooting Rx Complaints often begins with identifying what the problem is and whether it is real or perceived. This course presents information that can help the participant to look at the reality of perception without prejudging, and find solutions to both real and perceived complaints while turning lemons into lemonade.

3:00 - 3:50 p.m. **What are Lens Aberrations, and What Can We Do About Them?**
(1 Hour ABO)

This course will present information regarding lower order lens aberrations as well as higher order aberrations. It will explain the role lower order lens aberrations have played in lens design and the effect these aberrations have on patient vision. At the completion of this subsection, the student should be able to explain lower order aberrations, explain higher order aberrations, identify the effects of aberration on patient vision, and list the changes in lens design to reduce the effects of these aberrations.

ABOUT THE SPEAKER

**Diane F. Drake, LDO,
ABOM, NCLEM**

With over 30 years in the Optical business, Mrs. Drake is an approved speaker for ABO and NCLE as well as an advanced course approved speaker, and lectures both locally and nationally. She was president and owner of ALL ABOUT EYE VISION CENTER in Griffin, Georgia for over 19 years. She is a licensed optician in Georgia, advanced certified by both the American Board of Opticianry and the National Contact Lens Examiners and also has received her Masters in Ophthalmic Optics Certification by the ABO. She is a Fellow of the Contact Lens Society of America and Fellow of the National Academy of Opticianry. She currently serves for the National Academy of Opticianry, as President.

Opticians In April!

Sunday April 28th
6 ABO Credits, or 3 ABO and 3 NCLE
Details Inside!

Opticians in April!

Save the Date! Sunday April 28th

- ▶ Learn how to boost your value and your income!
- ▶ 6 ABO or 3 ABO and 3 NCLE credits available!
- ▶ Presented by nationally acclaimed speaker!
Diane Drake, LDO, ABOM, NCLEM
- ▶ Early Bird Special! Save \$25 when you register by March 29th, 2019

Sponsored by the California Association of Dispensing Opticians

FREQUENTLY ASKED QUESTIONS

Why Should I Attend?

Want to make more money? Want to keep your job? You have to up your skills and here is a time and place that makes it easy, one day and nationally recognized speaker, the person who teaches your sales reps. Bring a friend and make it fun!

I Don't Want to Spend the Money?

Who does? But this is continuing education to keep your skills and knowledge up to par with the changing environment. Your doctors have to have continuing education. It's a necessary part of the business and your boss would probably be willing to pay the expense to have great staff for his clients.

Why Sunday?

Many of us work on Saturdays! Maybe your boss will give you an alternative day off? You are making an extra effort to improve yourself, be more valuable to the practice and in turn the practice will be more successful!

But I'm Not ABO!

The American Board of Opticianary and National Contact Lens Examiners are much like an honor society. They have standards to belong and require continuing education to maintain a membership. The best part is these organizations encourage education for everyone at every level of experience, in its attempt to improve the industry.

Keep your ABO certification up-to-date with SIX HOURS of CE credit (All this and LUNCH too!)

Save \$25 if registered by 3/29

Total Fees	Non Members	CADO Members & Associates
Early Registration - Postmarked by 3/29/19	\$135	\$85
Regular Registration - Postmarked by 4/15/19	\$160	\$110
Registration Paid After 4/15/19	\$185	\$135

If you would like to join CADO check this box and add \$40 to the CADO membership payment. (Prorated dues through 2019.)

Classes, morning tea, coffee, and lunch buffet included.
